PRODUCT DATASHEET

MU655-MED

HTM71 Medicine Mid Height Storage Unit

Description

The HTM71 mid height unit conforms to British Standard BS 2881:1989 Security Level 1 the specification for Cupboards for the Storage of Medicines in Health Care Premises, however is not suitable for storing controlled drugs.

The units feature full length piano hinge down the length of the doors to improve strength. The units are designed for the volume storage and organisation of medicines using HTM71 trays and dividers (sold separately) and are also available with shelving.

These cabinets incorporate a double locking system incorporating 6-pin euro profile operated mortise locks (keyed to differ). The full specification for these can be seen below. The mortise locks on these cabinets can also be changed for key code operated cam locks.
